Improvements you will notice immediately will be the rebuilding of #4 green along with painting and new carpet in the clubhouse. We will also be changing our membership structure to enable us to be more competitive in the Aiken market. As you read over this newsletter we will be describing some of the other changes that will be taking place.

### PAR 3 TOURNEY

In the first hole of sudden death, Stan Thompson defeated Mike McCarthy to win the low gross division of the Par 3 Tourney on February 1. Both players had shot a 4 over par 58 during the first 18 holes. In the low net division, Dave Tarasawa claimed 1st place with a net score of 46. Due to an error by the pro shop's staff, Dave's first score was miscalculated. After Dave brought this to our attention, we recalculated his score and he still won by two shots over 2nd place finisher Bill Hayen. Congratulations to both Dave and Stan and a big thank you to all who participated in this event.

### BUTCH'S CORNER

February will be a busy month on the golf course as we wind up winter projects and prepare for Spring. During this month we will continue to add sand to bunkers, continue filling divots in fairways as well as replacing the old unsightly ropes around greens and tees with new ropes and stakes (like the ones at #5). The problem at #4 green will be addressed and reconstruction started. To reconstruct a green will take some time so your patience and understanding will be needed during this time. If you have any questions about this or any other concerns about the golf course please don't hesitate to ask.

Thanks and Happy Golfing,

The committee's recommendations as possible projects for CCGA are the following: purchase measurement markers for closest to the pin holes; purchase and erecting 90 degree signs on cart paths, probably 8 needed; installation of phone on hole #8 to place food at Grille Room; installation of emergency phone on one each of front and back nine; beautification projects, placement of azaleas or other flowers on course; start control shack near first tee (probably management responsibility); and more cookouts, poker games, and trips.

New sod is to be placed March 5th and all work should be completed and new green playable by Master's week. Drainage was the major project according to the Agronomist who was at the course on March 3rd and 4th. Recent membership drive was very successful with approximately 75 new members, including a number of old town memberships and some former members rejoining because initiation fee is imposed. Many course improvements are

yardage markers placed in ground in fairways; purchase new maintenance equipment (mower, sand rake); install new carpet in clubhouse pending; installation of new stakes on course pending; placement of sod in washed and sand in bunkers; maintenance of cart paths; and aeration of greens to be done in several weeks. Handicap Committee: Wayne Jones announced that two Equitable Stroke Control System and posting of scores handicap system. The ESC tape was viewed by those present. Equity Stroke Control is used to adjust higher scores players into normal ranges. ESC is a fixed number based handicap. A nationwide survey was conducted on usage of handicap system and it was determined that only 25% were using a handicap system. Much spirited discussion generated. An explanation of ESC is attached to report.

Glen Moseley commented on the continuing problem of posting target scores on dogfights. CCGA should play from only tee. Scores are posted correctly. Week day dogfights from white tees and use "gimmies" on short putts.

Meeting was adjourned at 8:31 p.m.

Respectfully submitted,

Acting CCGA Secretary

The new way to adjust scores with Equitable Stroke Control sets a maximum number that a player can post on any hole depending on the player's Course Handicap.

If you're out of a hole and pick up to speed up play, jot down the score you most likely would have made.

For Handicap purposes, you are required to adjust your hole scores (actual or probable) when they are higher than your maximum number you can post.

There is no limit to the number of holes on which you can adjust your score.

## ADJUST YOUR SCORES WITH NEW EQUITABLE STROKE CONTROL

18-Hole Course Handicap	Maximum Number Posted On Any Hole
9 or less	6
10 through 19	7
20 through 29	8
30 through 39	9
40 and above	10

For example, Woodstock and I played a match at Beagle Haven Country Club from the beagle tees. My USGA Handicap Index is 11.6 and my Course Handicap is 13, which allows me a maximum number of 7 on any hole when posting my score for Handicap purposes. Woodstock has an 18.2 index and a Course Handicap of 20, which allows him a maximum number of 8 on any hole when posting for Handicap purposes, whether the hole is a par 3, 4 or 5.

Scan your score card for any hole where your score (actual or probable) is higher than your maximum number.

Reduce these higher scores to your maximum number for handicap purposes.

Post your adjusted score.

Course Handicap	Hole	1	2	3	4	5	6	7	8	9
13	Uncle Snoopy	3	5	4	10	X-4	5	X-9	4	3
					7			7		
20	Woodstock	4	X-6	4	9	3	6	7	5	4

## Golf Tip of the Month

By: Rocky Oswald

Question: What produces an over the top swing?

Body alignment is important in creating a consistent swing plane. You must get your body square to your target line. If you set up in a closed or open position, you will have an inconsistent swing plane.

A closed stance will cause an over the top swing plane.

To help with this problem, lay two clubs on the ground like railroad tracks. Insure they are parallel to your target to get the feeling of being square. The right club is your target line and the left is your body alignment.

Remember to keep your body angle the same throughout the swing; if the body angle changes, so does the swing plane.

RANDY RICHARDSON, Greens Superintendent  
Cedar Creek Golf Club

Dear Randy,

I would like to take this opportunity, on behalf of the Cedar Creek Golf Association, to thank **YOU** and your **STAFF** for the hard work you all have done and effort that you all have expended in revitalizing the golf course. The course has shown an almost unbelievable amount of improvement. I believe one of the most remarkable things is that the golfers have experienced a relative small amount of inconvenience in spite of the tremendous amount of work on and to the golf course. We appreciate the personal attention you give to the details throughout the course. Your personal leadership and guidance to the staff and having a staff that can follow and carry out instructions is reaping great rewards. We now have grass in places that there has not been grass for a long time.

We again would like to thank both **YOU** and your **STAFF** for your efforts. We want you know we have noticed the work and appreciate those efforts. They allow us to be even more proud to belong to Cedar Creek Golf Club. Keep up the good work and be sure to let us know when we can help you.

Thanks again,

Alvin Boone  
President CCGA

## THE "SUPERS" COLUMN

We have had a month of change on the golf course. There has been a dramatic improvement with the condition of the greens. The fairways and roughs have also been modified.

In the coming month, we will continue to push the greens to get better coverage especially to the bare areas. We will be sodding the bare areas on the course as well. Our plans are to start to clean up the pine straw around the trees and enhance the beauty of the course by working on the native areas.

I would like to ask that everyone please place the rakes back in the bunkers when you are finished raking the bunkers. This will help us by keeping the rakes out of our way while we are mowing.

Thanks for your support,

## Course Update

Many of you have noticed how wet the course is. There is a reason. We are in the process of overseeding the course and this moisture is needed to help the grass seed germinate. With that in mind, please try to avoid areas that get extremely wet. Cart traffic takes away from the appearance and quality of overseeding. Try to stay off the turf and the stripes will look better longer. Use the 90 degree rule and park cart in rough, not fairway.

As per your request, we have lowered the rough 1/4 inch to try to make it easier to play from. We are always listening to your request and will try to fill them whenever possible.

Again, we ask for your help in repairing ball marks on the green, sanding divots, and replacing rakes in the bunkers, after raking them.

Finally, congratulations to Chad Hayen who is now our new Assistant Superintendent

## THE "SUPERS" COLUMN

It has been refreshing to have some cool mornings and days where it stayed out of the triple digits (that means over 100). Much like a lot of you, the cool weather has me excited to watch some football. I married into an Ole Miss family and it looks like another long season for them. Payton Manning sure has given the Rebels another reason to talk about him when he exposed his back side. (Tennessee must be proud.)

Enough of that rambling. I guess you want to know what I plan to do this month. It's time to start thinking about overseeding. Toward the end of the month, we will start to prep the course for the fall.

We are continuing to clean up the pine straw and native areas this month. As always we will work on the greens to continue to improve them.

Back to football quickly to closeout this months column. GO NEBRASKA. GO BIG RED.

Thanks for your support,  
Randy Richardson  
Superintendent
