

## Course News July 2019

Work continues around the course – pretty much the usual – with daily greens mowing and tees, fairways and roughs as necessary along with dressing of sand traps. Irrigation repairs are an all too common occurrence, but “Mr. Fix It” Gary is there with his shovel and replacement parts when the breaks appear. When you see Gary and his staff around the course let them know we appreciate their efforts.

Work has begun on reconstruction of the pavilion. Not much to see yet, but in a couple months it will be looking good!

Has anyone not heard that Gary Woodland won the U. S. Open a couple weeks ago? How did he do it? With stellar play, of course, and the right equipment that included ACCRA premium golf shafts in his driver and 3-wood, the latter that produced his epic shot to the 14<sup>th</sup> green in the final round. Woodland's victory wasn't the first credited to ACCRA shafts on tour but was certainly a very important one, which leads to announcement that ACCRA shafts are available at Cedar Creek. Dick Leach and Jason Chambers have both passed the ACCRA Shaft Fitting Certification Exam allowing them to set up a distributor account at CC along with acquisition of a complete set of fitting shafts which they will use to fit anyone's clubs with the very same shafts many pros are now using. Get in touch with Dick or Jason at the pro shop.

The summer heat wave has descended upon us. Take care on the course, and stay hydrated!
